

Graeme Schreiber- Artist's Statement

Graeme is a professional artist living near Stanthorpe, Qld. He has been painting for over 20 years, mainly as a hobby. He has recently given up having a day job to get a bit more serious about painting.

No particular style is followed or effort made to make any "statement". Enjoyment comes simply from the challenge of creating and the feel of paint on the brush (similar, maybe, to the feel of playing and composing with a guitar). His idea is to just produce work that looks OK and has appeal to other people. He works mainly with acrylic and uses both realistic and abstract styles.

During warmer months he works for periods outdoors. This helps train his eye to see colour more clearly. During cooler months more abstract works are done in the studio.
